UC-06: Set Up Medication Reminders
Medication Safety Assistant
Severe findings hold affected NEW reminders; existing reminders are not stopped automatically. Unassessed is not safe clearance; apply restrictions required by the review policy.
Check Schedule Verification and Applicable Safety Restrictions

Patient / General User
Set Up Medication Reminders
No activation without a verified schedule. Proposed new timing awaits the required simulated confirmation; review requests are handled separately through UC-04.
«include»
Browser notification failure is a delivery limitation: eligible schedules remain in-app.
Review and Confirm Recorded Schedule
